Sudan, Khartoum
International Fairground

Agriculture in SUDAN

Source: GTAI

- Agriculture represents about 40% of the Sudanese Gross Domestic Product (GDP) and 80-90% of non-oil-export sales.
- After Egypt, Sudan has the second largest irrigated area in Africa. At present, half of the agricultural production comes from irrigated areas however its potential is estimated up to 2.78 million hectares.
- Sudan is the third largest exporter of sugar and a large producer of cotton. Further main crops are sesame, peanuts, sugar cane, dates, citrus fruits, mango, coffee, tobacco and meat.
- There are high investment needs in all important business sectors such as Petroleum, Mining, Agriculture as well as Infrastructure. High attention value for providers of international machinery and spare parts.

Review 2018 (first run of the event)

- 52 exhibitors, 8 countries, 896 trade visitors
- Opening ceremony in co-operation with the ambassadors of Germany, France and Switzerland

Platinum Partner

- **GIAD Industrial Group** - founded in 1993 with the vision to make it the largest industrial group in the region
- **Activities in the Agricultural Industrie:** agricultural equipment, tractors, earthmoving machines, irrigation equipment, harvesters and agricultural spraying services
